

Burhan Ahmed

FLUTTER DEVELOPER

Gujranwala, Pakistan • burhanahmed3366@gmail.com • +92 319 8016285 • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Flutter Developer focused on building intuitive, reliable, and high-quality mobile applications. Strong foundation in application architecture, UI development, and modern development practices, with a problem-solving mindset and a focus on creating practical solutions that deliver a seamless user experience.

WORK EXPERIENCE

Flutter Developer Intern — CPH4 · Gujranwala, Pakistan Sep 2025 – Dec 2025

- Developed cross-platform mobile applications using Flutter and Dart.
- Built and implemented responsive user interfaces based on application requirements.
- Worked with Flutter widgets, navigation, state management, API integration, and application architecture.
- Implemented core application functionality and integrated backend services where required.
- Debugged, tested, and resolved application issues to improve functionality and user experience.
- Developed two functional mobile applications as part of internship, applying Flutter development practices.

PROJECTS

Office Task Manager (CPH4) github.com/burhanahmed12/app_cph4

Tech Stack: Flutter | Dart | Firebase Auth | Cloud Firestore | Provider

- **Role-Based Workflows:** Developed distinct Admin (Task Assignment & Management) and Employee (Task Execution & Progress Tracking) dashboards.
- **Task Delegation & Real-Time Sync:** Enabled admins to create & assign tasks with due dates, using Cloud Firestore for instant live status updates.
- **State & Security:** Applied Provider pattern (AuthProvider, TaskProvider) for business logic and integrated Firebase Auth for secure authorization.

FixNear — On-Demand Service App github.com/burhanahmed12/fix_near

Tech Stack: Flutter | Dart | Provider | OpenStreetMap | REST APIs

- **App Architecture:** Built a cross-platform Flutter app connecting customers with local repair providers using clean architecture & Provider state management.
- **Map & Dual Workflows:** Integrated OpenStreetMap (flutter_map) for real-time location-based provider discovery with distinct customer and provider portals.
- **APIs & Storage:** Implemented REST API integration (http), image uploads, and session persistence (shared_preferences).

StockSnap — Mobile Inventory & POS App github.com/burhanahmed12/stock_snap

Tech Stack: Flutter | Dart | SQLite | Provider | fl_chart

- **Offline-First & POS:** Built an offline inventory & POS app using Flutter and SQLite with real-time barcode scanning and automated checkout.
- **Restock Engine & Analytics:** Engineered a restock forecasting engine triggering reorder alerts and integrated fl_chart analytics dashboards with automated PDF/CSV report generation.

TECHNICAL SKILLS

Mobile Development:	Flutter, Dart, Android Development
Backend & APIs:	Firebase, REST APIs, Firebase Auth
Database:	Firebase Firestore, SQLite
Tools & Practices:	Git, GitHub, Android Studio, VS Code, UI/UX Implementation, State Management, Debugging

EDUCATION

BS Computer Science — University of Central Punjab 2022 – 2026
